3b Budget FY 2025/2026

DATE:

April 8, 2025

TO:

Hellyn Riggins, City Manager

FROM:

Michael Walker, Financial/Management Consultant

SUBJECT:

FY 2025-2026 Proposed Budget

Attached is the proposed FY 2025-2026 budget for initial review and consideration by the Eagleville City Council. This document is a compilation of the input received from the entire staff. It is a balanced budget and to the best of our knowledge represents a sound financial proposal taking into account the needs of the City within the available resources.

Key points for the City Council to consider as they begin their review and deliberation oo the proposed budget:

- 1. **Strong General Fund Financial Position** Projected fund balance of \$2,135,000 on 6/30/25.
- 2. Appropriate Fund Balance Level While there are no exact or agreed to standards, Eagleville is heavily dependent on a single taxpayer for a majority of its annual General Fund revenues. In addition, there is much uncertainty on the state of the economy moving forward into the next fiscal year. Accordingly, it is recommended that City maintain a minimum unreserved fund balance in excess the proposed operating budget for FY 2026 of \$1,900,000. This conservative approach will better protect the City from economic uncertainty both nationally and locally plus cover cashflow needs.
- 3. Idle Funds Are Safe and Invested- With rising interest rates in recent years, the City's revenue base in all funds is benefitting financially from the investment of idle funds in allowable securities under State law (State of Tennessee Local Government Investment Pool and FDIC protected Certificates of Deposits). Returns on investments on idle funds currently exceed 4%.
- 4. **No Property Tax Increase** The budget again requires no increase in the property tax rate of \$.4051 per \$100 assessed value of taxable property and benefits from continued growth in taxable property. Anticipated residential development in the next few years should be beneficial to the tax base too.

- 5. Importance of Local Sales Taxes At 58% of the total General Fund revenues, it is THE critical funding source for the City. Revenue is projected conservatively based on recent trends but historically, actual collections have fluxuate widely up and down reflecting the state of the economy and sales at important local businesses.
- 6. A Commitment to Staffing The proposed budget maintains existing services & staffing levels (12 full-time positions). Within the total General Fund budget of \$1,901,214, 50% or \$951,170 is committed to salaries and benefits. There is a minimum of 5% adjustment in salaries available for all employees based on performance. Additional compensation up to 9% total is provided for rank and file Public Safety employees to better attract and retain personnel and to compete better with public safety compensation in surrounding jurisdictions.
- 7. Public Safety Center Debt obligations With the successful completion of the Public Safety Center, the City will begin to incur \$266,026 in permanent, low interest USDA-RD loan obligations annually starting in FY 2026 for the next 40 years. Because of the willingness of the City Council to advance funds toward this debt obligation, the City will be able to systematically phase-in the amount of required annual transfers from the General Fund to the Debt Service Fund over several years beginning with \$204,000 in FY 2026 plus \$20,000 increases annually in future years until FY 2030.
- 8. Capital Items in FY 2025-2026 Projects include the local match of \$176,500 for TDOT grants for sidewalk improvements, \$63,550 for the purchase a fully equipped police vehicle, street paving in the New Town subdivision (\$184,400) and demolition of old fire/police building and paving of the area (\$70,000). Note that work on the last two projects should be initiated before June 30, 2025.
- 9. A Word of Caution Given the uncertainty in the American economy at present, the staff will be monitoring closely local revenue trends over the next two months. Any adjustments to the proposed budget that may be warranted will be presented for consideration prior to second and final reading of the FY 2026 Budget Ordinance.

I will be present at the April 10, 2025 work session with the City Council to review the proposed budget and answer any questions.

Michael Walker

3c Sewer Capacity Fees

DATE:

April 4, 2025

TO:

Hellyn Riggins, City Manager

FROM:

Michael Walker, Financial/Management Consultant

SUBJECT:

RECOMMENDED INCREASE IN SEWER CAPACITY FEES

We have had several conversations among staff recently on the need to increase the City of Eagleville's (residential equivalent) sewer capacity fee. This is becoming more critical given: 1) the new subdivisions coming online; 2) the uncertainty of continued operation and maintenance of the City's STEP treatment systems by CUD; and 3) the anticipated need to expand, upgrade and improve the STEP systems in the future which will generate financial obligations to the sewer fund.

There are typically two options available for generating fees from new development to help cover their impact on future improvements to sewer system. There is the current method "Sewer Capacity Fee" plus the use of "Tap Fees." I have attached definitions of the two options for your review. Tap fees typically are used to reimburse the City for its out-of-pocket expense for direct costs incurred in funding/constructing sewer system improvements while capacity fees are used to accumulate funds for future system wide expansion and improvements due in part to demand created by the new development. In Eagleville's case, the income generated from capacity fees will help fund future improvements, thereby reducing the financial burden from being entirely on the monthly customer bills. Also, it reduces the amount of debt needed to cover future improvements.

In reviewing the surrounding communities with sewer type connection fees, the City of Chapel Hill comes the closest from a comparison standpoint given its close location and being a competitor in housing starts. They operate a wastewater treatment system (being upgraded by the city) which is more complex and costly to build and operate than the STEP systems used by Eagleville and initially constructed at developer expense. Chapel Hill currently charges a new home \$5,000 for a sewer tap fee and \$5,000 for a sewer capacity fee - \$10,000 total (see attachment).

Given the impending residential development in Eagleville, I recommend that Eagleville move forward immediately (in April) with a proposed ordinance to increase its Sewer Capacity Fee (per residential unit) from the current \$3,500 to \$5,000. This rate is fair, in line with the surrounding community, and takes into account that developers in Eagleville are paying to install STEP systems built to City standards, thereby saving Eagleville the initial capital investment cost. With the developer funded capital expense, the City does not have a basis to justify an additional "tap fee" at the time of issuance of the building permit. Assuming 30 new homes are started in FY 2026, the increase in capacity fees next fiscal year for future system improvements would generate \$150,000 versus \$105,000 under the current fee schedule.

Please let me know if you have any questions. Thanks.

Tools

Sewer capacity fees cover the cost of infrastructure upgrades and expansions to handle increased sewage treatment capacity for new connections, while sewer tap fees reimburse utilities for the costs of establishing a new sewer service connection. θ

Here's a more detailed breakdown:

Purpose:

These fees help fund the construction and expansion of wastewater treatment plants and infrastructure to accommodate increased demand from new customers. $\, \mathscr{O} \,$

Basis:

Capacity fees are often based on the potential new demand on the system, such as the size of the water meter or the number of units proposed for a development. ${\cal O}$

Example:

A developer building a new subdivision might pay a capacity fee per lot to ensure the sewer system can handle the additional wastewater generated by the new residents. ${\mathscr O}$

Goal:

To ensure that new customers contribute to the costs of infrastructure upgrades needed to serve them. ${\mathscr O}$

Sewer Tap Fees: ∅

Purpose:

Tap fees reimburse utilities for the costs of physically connecting a property to the sewer system, including materials, labor, and administrative expenses. θ

Basis:

Example:

When a new home is connected to the sewer system, a tap fee is charged to cover the cost of installing the connection. $\,\mathscr{E}$

Goal:

To recover the costs associated with establishing a new service connection. •

ORDINANCE NO. 2025-002

DELETING ORDINANCES 2023-007, 2015-05, AND 2014-08, RATES AND FEES FOR SANITARY SEWER SERVICE AND REPLACING WITH ORDINANCE 2025-002

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF EAGLEVILLE, AS FOLLOWS:

Section 1. Rates

- (a) No Change.
- (b) No Change.
- (c) No Change.
- (d) No Change.

Section 2. Billing (Strike in its entirety)

Add: Section 2. Billing

The following fees shall be charged for sanitary sewer service:

•	Application/Connection Fee	\$500.00
•	Capacity Fee: (Residential)	\$5000 per Single Family Residence
•	Capacity Fee: (Comm/Indus)	\$5000 per REU Usage Per REU Chart
•	Capacity Evaluation Fee	\$300.00 (as needed)

In determining capacity for Commercial and Industrial uses, the City Manager and if requested by the City Manager, the City Engineer will review and approve total daily flow rate as presented by applicant, which will then determine the Capacity Fee. Typical Wastewater Flow Rates Chart is attached and will be used as a guide (Attachment A).

Application, Capacity and Capacity Evaluation Fees shall be paid at the time of issuance of the Building Permit.

Section 3. Waivers, Exemptions, Reductions

- (a) No Change
- (b) No Change
- (c) No Change

Be it Ordained by the City of Eagleville, Tennessee that this Ordinance shall become effective on ______, in accordance with the Charter of the City of Eagleville, Tennessee, and the public welfare demanding it.

Attachment A Typical Wastewater Flow Rates from Institutional Sources

<u>Facility</u>	<u>Unit</u>	Flow, Gallon Range	s/Unit/Day Typical
Assembly Hall	Seat	2-4	3
Hospital, Medical	Bed	125-240	165
	Employee	5-15	10

	Employee	5-15	10
Prison	Inmate	80-150	120
	Employee	5-15	10
Rest Home	Resident	50-120	90
	Employee	5-15	10
School, day only With cafeteria, gym, showers With cafeteria only Without cafeteria, gym or showers	Student Student Student	15-30 10-20 5-17	25 15 11
School, boarding	Student	50-100	75

Typical Wastewater Flow Rates from Multi-Family and Commercial Sources

Facility	<u>Unit</u>	Flow, Gallon Range	s/Unit/Day Typical
Airport	Passenger	2-4	3
Apartment House	Person	40-60	50
Apartment, Resort	Person	50-70	60
Automobile Service Station	Vehicle Served Employee	8-15 9-15	12 13
Bar	Customer Employee	1-5 10-16	3 13
Boarding House	Person	25-60	40
Bowling Alley	Alley	150-250	200
Cabin –resort	Person	8-50	40
Cafeteria	Customer Employee	1-3 8-12	2 10

Facility	<u>Unit</u>	<u>Flow, Gall</u> Range	lons/Unit/Day Typical
Store, resort	Customer Employee	1-4 8-12	3 10
Swimming Pool	Customer Employee	5-12 8-12	10 10
Theater	Seat	2-4	3
Visitor Center	Visitor	4-8	5

Once a total daily flow rate is determined, it is to be converted into a Residential Equivalency Unit (REU) by dividing the total daily flow rate by 300 (1 REU equals 300 gallons per day).

The capacity fee will then be determined by multiplying the calculated REUs (or portion thereof) by the currently adopted capacity fee per REU.

Hi Heather,

Of course we will be glad to have you, but if you are going to put in tents or portable toilets, you'll need to coordinate the location with me.

Subject: Horton 100 - SAG Stop

Hey Helen!

I hope this email finds you well! We have the Horton 100 coming up at the end of April and would love to utilize Eagleville City Hall as a SAG stop on our bike route. The date is Sunday, April 27^{th,} and the time would be from 7:00 am - 9:30 am. Can we count on being able to set up there?

Thanks, Heather
